

## Citadon CW Windows Client 8.0.0: New Features and Enhancements

### Fixes and enhancements

Support of Spanish and French languages through the installable client.  
(Separate client builds for separate languages)

New BP printing shows pages as you see them in the client.

New rate counter feature in the UPLOAD and DOWNLOAD action window.  
This can be used for better diagnosis of connection problems and give feedback on the status of the network.
