

### **Citadon CW Windows Client 8.0.1: New Features and Enhancements.**

This is to be considered a PATCH release and contains the following enhancements and fixes:

- Revision number is now added to the header for printing a business process form.
- Comma (",") is now allowed in string custom attributes.
- Fixed the issue where document and folder icons were not showing in some 8.0 clients.
- Fixed the error when modifying groups from the search results window displayed when searching for groups.
- Fixed the error when search screen display was not showing the entire screen.
- Fixed the error when selected paper size for printing a business process form is not available.
- Fixed the error when editing two files with the same title in the Multiple Document Property Screen.
