

Citadon CW Windows Client 8.0.5: New Features and Enhancements.

This is to be considered a PATCH release and contains the following enhancements and fixes:

- Add the display of the appropriate icons for Office 2007 documents
- Correct date sorting in data explorer lists (folders, documents, binders)
- Display the value list for custom attributes in the same order that is set by the administrator
- Allow for expanding Groups in the To: list for business process to see specific users included in the Group
- Maintain attachments in a Type II business process when the instance is revised
- Correct column sorting for Business Process logs with more than 1000 instances
